

Sponsor My Degree

SponsorMyDegree.com is a free online service that allows college students to receive sponsorships for their college educations from philanthropists, organizations or companies.

SponsorMyDegree.com is NOT a charity and does not make loans to students. It is a listing service where students and graduates can essentially ask for money from anybody who wants to sponsor them. By not being a non-profit, SponsorMyDegree.com has more flexibility to let any individual or company give money to any student for any reason without the expenses, paperwork, and limitations involved in creating a traditional scholarship.

You may have heard of the concept of micro-lending, where people lend small amounts of money in order to make a big difference, typically in third world countries. Micro-sponsorship is a new term coined by SponsorMyDegree.com which refers to small contributions to a student's education from individuals and companies, which over time should add up to make a significant dent in the student's college debt. The small minimum amount of a micro-sponsorship (as low as \$5) lets ordinary middle-class Americans directly support education with contribution amounts within their means, and with enough volume the micro-sponsorships can make a real difference in students' lives.

Membership is free. It does not cost any money to be listed on SponsorMyDegree.com.

You DO NOT have to be currently enrolled in a college to become a member of SponsorMyDegree.com. If you are in high school, or have not yet selected which college you are going to, you can still become a member of SponsorMyDegree.com, and collect micro-sponsorships toward your college education. (If you are under 18 years of age you will need parental or guardian consent.) Although sponsorships can accumulate in your online account, you cannot collect any of the money until SponsorMyDegree.com verifies your enrollment or graduation from your selected education institution. SponsorMyDegree.com is also available for students who have completed their college educations and need help paying for student loans. In this case, degrees earned and student loans will be verified by SponsorMyDegree.com before you can collect any money.

Promoting your SponsorMyDegree.com page is an important marketing tool to help you get more money for college. Although individual sponsors and companies can find your profile using our search tools, you are also free to promote your SponsorMyDegree.com pages to your friends, family, local businesses, community groups, and anyone who may be interested in helping sponsor your college education. SponsorMyDegree.com provides a secure, convenient online environment where people can feel comfortable sponsoring your college account. You can generate a web button to put on your personal web site (or on your Facebook or Myspace page) that will link people directly to your profile page, where they can make a micro-sponsorship directly to you. You can also promote your SponsorMyDegree.com page to friends and family so they can give you sponsorships as gifts for birthdays, holidays, or graduation.
